Introduction

The mainstream of Leadership and management development is a long-term task that requires a process of developing and adapting many roles .it is necessary to consider leadership qualities, management skills and reflexive abilities.

Leadership has many roles to begin with and has been diversified by many literatures, in this course we choose the main seven roles that is more tangible interpersonal and decisional role in the leader and manager

The best Manger is the one who perform his roles in a professional way, and face the hurdles and challenges in a huge market, where a number of competitors

They say that leaders are born, not made. While it is true that some people are born leaders, some leaders are born in the midst of adversity. Often, simple people who have never had a leadership role will stand up and take the lead when a situation they care about requires it.

In today's world, change is inevitable and often difficult to deal with. You'd need to find different ways of looking at change, make change easier for yourself and others, develop techniques to cope with change, including resiliency and stress management, and create a change implementation strategy.

During this course, you will learn how to design and implement a successful leadership strategy, as well as manage, and cope with change.

Who Should Attend?

Staff at all levels, especially Middle and Executive Level Managers whom need to be effective leaders and are always under constant stress to cope with, or even create, change, as well as decision makers and employees whom constantly deal with different parties outside the organization.
