Business Analysis Practice

18 – 22 March 2018   Muscat / Sultanate of Oman

Introduction

International Institute of Business Analysis (IIBA) is the independent non-profit professional association for the growing field of business analysis. The goal of IIBA is to create greater awareness of the Business Analysis (BA) profession by defining *what is business analysis* and working towards recognition of the value of the business analyst role in the organization. BA can help the organization to gain a competitive advantage in the marketplace and enable the organization to succeed. Business analysis is a vital function and it requires the business analyst to be able to verifiable and traceable requirements and manage them through the entire requirements process and the entire project lifecycle.
